

下の計算問題の□に数字を記入して式を完成させてください ⑧
「0」を使うのは禁止です

$$\textcircled{1} \quad \square - \square + \square = 8$$

$$\textcircled{1} \quad \square + \square - \square = 10$$

$$\textcircled{2} \quad \square + \square + \square = 7$$

$$\textcircled{2} \quad \square + \square + \square = 9$$

$$\textcircled{3} \quad \square + \square + \square = 12$$

$$\textcircled{3} \quad \square - \square - \square = 5$$

$$\textcircled{4} \quad \square - \square + \square = 6$$

$$\textcircled{4} \quad \square + \square + \square = 10$$

$$\textcircled{5} \quad \square - \square - \square = 2$$

$$\textcircled{5} \quad \square + \square - \square = 8$$

$$\textcircled{6} \quad \square + \square + \square = 4$$

$$\textcircled{6} \quad \square - \square + \square = 12$$

$$\textcircled{7} \quad \square - \square - \square = 11$$

$$\textcircled{7} \quad \square + \square + \square = 6$$

$$\textcircled{8} \quad \square + \square + \square = 5$$

$$\textcircled{8} \quad \square - \square + \square = 11$$
